

JUNE 19/21 2017

6TH EDITION

Location POLO TECNOLOGICO DI PAVIA
Via Cuzio, 42, Pavia

SKIN Summer School

Quality assurance of ingredients and cosmetic products

Quality Assurance is a complex concept, which involves many activities in the cosmetic company. In order to reach a good level of quality it is important to know and put into practice the specific guidelines, to provide corrective actions, train staff, carry out periodic checks. Theoretical and practical sessions of the Skin Summer School want to represent the contribute towards an improvement of quality system and to assure the quality of the final product.

Conference President
Prof. Paola Perugini
Scientific Secretariat
Dr. Priscilla Capra
